IV. REMARKS

United States Serial No. 10/772,493 was filed on February 5, 2004. Claims 1 and 18 have been amended by the present response. Claims 20-37 were previously cancelled. Applicants respectfully request reconsideration of claims 1-19. In view of the amendments to claims 1 and 18, Applicants submit that claims 1-19 are in condition for allowance.

Independent claim 1 recites "an exterior finishing material." The Examiner has questioned whether "an exterior finishing material" is the same as the "exterior finishing system." These two phrases are not the same. The "exterior finishing system" includes "exterior finishing materials" as a component. The specification discloses that "exterior finishing materials" include weather barriers, insulation, exterior cladding, and exterior insulation and finish systems. Specification at Page 3, Lines 5-6; Page 6, Lines 15-16.

Independent claim 1 also recites "a bonding material" at lines 8 and 10. The Examiner has questioned whether the bonding material recited at lines 8 and 10 is the same. They are the same. Applicants have amended claim 1. The first occurrence (line 8) of the phrase "bonding material" remains preceded by the article "a". The second occurrence (line 10) of the phrase "bonding material" is now preceded by the word "said".

In view of the above amendments and remarks, Applicants respectfully request the issuance of a formal Notice of Allowability directed to claims 1-19.
